My business is built on my ability to meet the needs of my customers and clients. **Put me to work for you and I promise I will save you time, money, and make your Real Estate experience FUN!**

The following are excerpts from my Marketing Proposal. These are just a summary of some of the highlights of the proposal and illustrate how far I'm willing to go to service you as my client in today's Lake Keowee Market. If you have any further questions, give me a call Toll Free at: (866) 371-2911.

Thanks,

Mike Roach

Marketing Plan

•Create a list of people in my database who are already looking for your type of property and contact them *immediately*.

•Currently between 90% of all real estate searches start on the WEB. How do I take advantage of this for you?

•Place your property in *The Greenville MLS and The Upstate MLS*

Place your property on the following Internet sites as well as 50+ others

- My Personal Web site www.MikeRoachOnline.com
- LakeKeoweeRealEstateExpert.com
- Foxcarolina.com
- topgunsrealty.com
- Yahoo.com
- Realtor.com
- RealEstateBook.com
- HomesandLand.com
- GGAR.com
- Houselocator.com

I use Top Producer to manage these leads.

This system gives me the ability to respond to leads faster than any other realtor, creating the greatest likelihood of my capturing and converting that person to a sale on your property.

The system also keeps up with where all leads originate and how often they are converted. With this information, my team and I can adjust my marketing mix with great speed and accuracy in order to create the greatest number of leads on your property.

•Review marketing activity with you every 30-45 days in order to reevaluate market position in light of competition. Suggest ways to improve market position.

- Constant research and development on new tools and strategies to advertise your property most effectively. One such project is aerial video and now we are moving into virtual reality!
- Analyze your listing with the other agents in our office to come up with other ideas of marketing or improving saleability.
- Follow-up on showings and collect comments.
- Contact other realtors in the area by phone to tell them about your property
- Utilize company billboard advertising
- Set you up in our MLS's automatic update in certain cases so that you can keep up with what's happening in Lake Keowee and Lake Jocassee on a consistent basis.
- Print media advertising in conjunction with their Web sites
- Place arm sign on property with brochure box filled with color brochures and Smart phone tagging taking the prospect directly to your properties Web site with VIDEO.
- Making use of Top Producer software to communicate with you effectively and efficiently.
- Top Producer is Web based and I have the ability to access it anywhere using my laptop and Verizon Wireless high speed Internet connection. This gives me access to all of my information whenever I need it.
- Access to my office staff of 1 full-time assistant, 2 part-time assistants, and a marketing director working to advertise your property and make sure all loose ends are managed.
- Access to your property's personal Web site where you can log on and get a running total of all activities performed for your listing - 24/7.

- My team has built a database of all waterfront property owners on Lake Keowee and Lake Jocassee.
- We maintain my database on a daily basis by tracking all property transfers, creating a history of ownership as well as maintaining the viability of the database for prospecting.
- Our prospecting of the database includes but is not limited to the following:

***Over the next year, my team and I will send out in excess of 14,400+/- pieces of direct mail.

***In order to bolster that process, we will also advertise in and around the area with a marketing mix of Internet, print, TV, outdoor, etc. This program is being administered by my marketing director in accordance with the marketing plan produced by Hobbs Herder Advertising, a nationally renowned Real Estate-Specific Advertising Company.

***Also over the next year, I will spend in excess of \$80,000 personally on advertising my brand, my team, and my listings.

•If you are still asking, "How do all of these tools lead to a faster sale at a higher price for my property?" Consider the following:

•More eyes viewing your Property = More Potential Buyers = FASTER Sale at a HIGHER PRICE!

•26 years experience on the Lake = 26 years of customers = Knowing what it takes on Keowee and knowing the people of Keowee = Maximizing your Return on Investment!

•I have sold in excess of 190 property sides on Lake Keowee in the last three years and have worked with the following developers: Bay Ridge, Cedar Creek, Keowee Bay, The Cliffs at Keowee and The Cliffs at Keowee Vineyards = Selling Success = Maximizing your Return on Investment!

•Work with the Pro who Sells to the Pros--I have sold property on Lake Keowee to Tom Glavine (New York Mets) & Jay Howell (Los Angeles Dodgers) = Large Database = More Contacts = Maximizing your ROI!•

The Perfect Fit
For Your Real
Estate Success

MIKE
ROACH
The Perfect Fit

Top
Guns
Realty,
Inc.

www.MikeRoachOnline.com

The advertisement features a scenic background of a lake with a white house on the shore. A vertical strip on the right contains three small images: a person fishing, a person on a boat, and a group of people on a boat. A man in a red polo shirt is sitting in the foreground, smiling. The text 'MIKE ROACH The Perfect Fit' is centered, and a white box on the left contains the text 'Top Guns Realty, Inc.'. At the bottom, a dark blue bar contains the website address 'www.MikeRoachOnline.com'.

Top Guns Realty, Inc.

The first things to think about when marketing any property are the demographics of the most likely purchaser. The most likely person to purchase your property on the second home side, according to the latest NAR statistics, will have the following characteristics:

- They will be 55 years of age with an income around \$71,000.

- 57% want their vacation home close to job, school, or primary residence.
- 86% will not rent out their second home.
- Median distance between home and second home is 49 miles.
- 88% of vacation home buyers travel to the property by automobile.
- 83% of the time the second home purchased is a single family detached home.
- Median purchase price of a vacation home is \$190,000.
- 83% of the time vacation homebuyers use a real estate agent in their search.
- 59% of the time they will also use the Internet.
- 70%+ of vacation home buying households have no children under 18 residing in the home.
- 29% of the time this will be a personal family retreat, 27% of the time it will be the primary residence in the future, 16% of the time it will be used solely as a vacation home.
- The 4 most important attributes of a second home in order are: Close to job/school, close to primary residence, close to preferred recreational activity, and is safer than their primary residence.
- The four most important leisure activities: beach/lake/water sports, biking/hiking/horseback riding, golf, boating/hunting.
- 54% of vacation homebuyers spend less than 3 months in the property.
- 92% of vacation homebuyers see it as a good investment.
- 67% will not purchase another property within 2 years.
- 85% of second homes are within 199 miles of primary residence.
- 56% of all vacation homes are between 1000& 1500 sq. ft.
- The four most used sources of information to find a vacation home are: Real Estate Agent, Yard Sign, Open House, Internet.
- The two main places where a buyer first learn about their vacation home are: Real Estate Agent, Friend/Neighbor/Relative.
- 94% of vacation homebuyers frequently used the Internet in their search.
- The median search time for a second home is 7 weeks.
- The median number of homes visited is 6.

In the case of your particular property, the purchaser may also be a permanent resident. The demographic profile of that purchaser lines up very favorable with the above information. Based on the above information, we have created the following plan.

Marketing Plan

The marketing strategy of Top Guns Realty is to promote and support the fact that the property is valuable and unique.

Marketing Strategy

Positioning

We must position this property as a good value by building on the reputation of Lake Keowee itself. We have seen and will continue to see interest in property on Lake Keowee. The most productive times of the year for sales should be from around mid-April to late September. We have an opportunity during those months to hit while demand is high while also expanding the possible number of buyers who can afford a property on Keowee. The first step is to make people more aware of the current situation of scarcity in your price range. Next, to make people aware that the opportunity you are providing at the price you are asking is reasonable. These things can be accomplished through a myriad of marketing programs that we will discuss further.

We are constantly surveying people that we currently have in our database as to why they own property or are interested in property on Lakes Keowee and Jocassee. We would expect and have found a love of the mountains, lakes, water sports, and the beauty that is commensurate with the area. It should be apparent from these discussions that potential owner's age (which is quite diverse) is not the driving factor to buy. The purchase decision seems to be based more on prestige and the ability to say you have and can use property on the lake. Therefore, we must project this property as an affordable high quality piece of property within close proximity to all of the amenities of Seneca.

The consumer should see the property as a remarkable value in an otherwise pricey market. Its unique advantages can be exploited to arrive at a winning position in the consumer's mind. In terms of market segmentation advantages, we will appeal to "the typical buyer 45 to 65, married, often with grown children, incomes of at least \$300,000 per year, and more importantly a net worth typically starting at \$3,000,000."

The Prime Selling Basis (the fundamental strategy of our advertising) for this property, then, is to show that we have a high quality property that is very usable and in a prime location.

Direct Response Mail

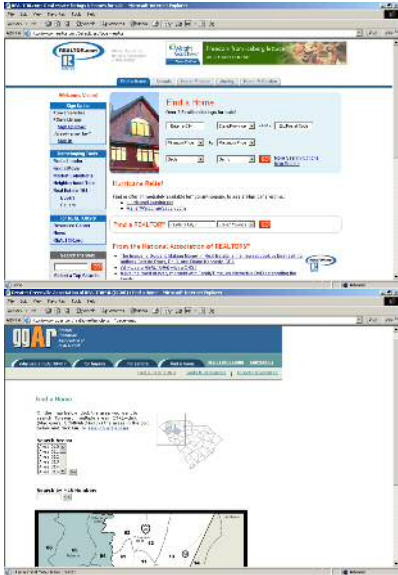

We have been sending direct mail pieces for the last 18 months to all property owners on Lakes Keowee and Jocassee. We have sent around 250,000 pieces of mail and have been quite pleased with the response. We anticipate the response rate to increase continually as the multi-year plan plays out. We will have and will continue to approach this scientifically as we improve our customer targeting ability. We propose continuing to use our existing databases and sending to all of them different marketing materials.

Internet

With MikeRoachOnline.com, LakeKeoweeRealEstateExpert.com, topgunsrealty.com, Yahoo.com, trulia.com, Realtor.com, GGAR.com, HomesandLand.com, Oodle.com, JustRealEstateListings.com, Google.com, HouseLocator.com, LivingChoices.com, LendingTree.com, Lycos.com, Homegain.com, BobVilla.com, Home.Bellsouth.net, USAtoday.com, House-Real-Estate.com, My.Earthlink.net, Online.wsj.com/public/us, AOL.com, and RealEstateBook.com web pages, we will be able to piggyback one off of the other maximizing exposure and the ability to get the property information out. There are also in the neighborhood of 550 company and individual agent Web sites that have an IDX feed giving them access to the property listing as well, thereby increasing the exposure exponentially as all

of those agencies and agents market themselves and their companies. We also have the ability to mass e-mail to people according to certain criteria; thus exposing the property to all people looking for this type of property in our area. Respondents will be handled in the same manner as above, making sure that *no one falls through the cracks*.

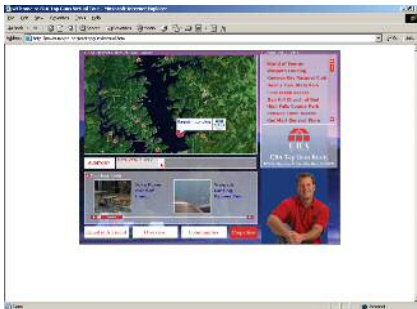

T.U.V.T as Part of LakeKeoweeRealEstateExpert.com

The ultimate virtual tour is one of our latest tools. This program allows the buyer to get a bird's eye view, actually a satellite's eye view, of the lakes with their various points of interest as well as available properties and their amenities.

They will easily be able to find where the property is located with respect to shopping, landings, hiking, historical sites, other types of recreational activities, etc. Potential buyers will be able to go directly into a virtual tour of each area.

Telemarketing

We will use an in-house telemarketing service to perform the following functions

Provide outside sales support.

- Literature mailing
- Follow-up calls
- Customer entry

Respond to inquiries.

- Database entry
- Literature mailing
- Marketing research

Generate New Business.

- Schedule appointments
- Carefully address each issue [questions, objections, etc.] during the training process.

Advertising and Promotions (tools and methods to increase the customers' awareness of the product).

- Purpose: Promote and support the fact that the property is unique and exciting.

Objectives

Position these properties as good values in that area with great access to the Seneca area.

Generate qualified sales leads.

Coordinate sales literature, demonstration, materials, telemarketing programs, and direct response promotions in order to maximize tours and eventually a sale.

Media Strategy

One of our primary media sources will be the Internet. Over 90% of all real estate searches begin on the Internet. In addition, we will select primary real estate publications with high specific market penetration and, furthermore,

we will schedule adequate frequency of ads to impact the market with livability of the property.

We will take advantage of special high-interest issues of major publications when possible.

We will maximize ad life with monthly and weekly publications.

To profit the most from our promotional budget, our media coverage will be geared to focus on the demographics that we obtain from our research.

We have developed an advertising campaign built around competitive advantages, beginning with a “who we are” statement and supporting it with ads that reinforce the value message. Additionally, we have developed consistent reach and frequency throughout the year.

Advertising Campaign

The best way to reach our potential customers is to develop an intense advertising campaign promoting Lake Keowee and the properties on it.

Accordingly, we have created a system of research and response to insure the maximum benefit from advertising dollars.

We have and will continue to develop an ad history: One way to measure advertising effectiveness is to count the number of responses, inquiries, and/or purchases per persons hit.

Preliminary Media Schedule (Monthly)

MLS Greenville

Circulation Budget Ad Size
2000+/- agents MLS Dues

MLS Anderson	1330+/- agents	MLS Dues
Internet sites (50+) portion w/Videos month	Unlimited	\$3500+/- per month
Direct Mail	2,000 per month	+/- \$10,000
Telemarketing	unknown	/part of infrastructure
SOI/Past Customers and Clients	4800+	
Signage (primary on site)	Seasonal,	but greatest response rate
On site brochure boxes (to bolster primary signage)	dependent on usage	
[Magazines, Newspaper, print ads]	100,000	\$500+/- per month
Billboards [4]	1,500,000	\$1000+/- per month
Public Relations	Unknown	Unknown
Television	400,000	\$150+/- per month
Infrastructure to handle leads created above	\$15,000	per month

Anticipated Response [ex: 1/10,000]

Multiple Listing Services

- The property will be listed in all three multiple listing services we are members of.
- We will be contacting by phone and by brochure the most property specific influential realtors in the marketplace.
- We would want to offer a 5% commission to these realtors.
- We believe if this core group is handled successfully they have a 60%+/- chance of producing a sell.

Internet sites

- Currently more than 90% of all property searches begin on the Internet.
- Our presence on the Internet includes 23 separate sites + an estimated 500 agent and company IDX feeds many with the ability to deliver virtual tours and point people in the directions of a virtual tour.
- By advertising the Web site prominently in all media used, the Internet becomes an excellent companion. This is done by giving the consumer much relevant information as well as pictures and virtual tours.

Direct Mail

- Our current mail database consists of waterfront property owners on Lakes Keowee and Jocassee, past customers and clients, local and regional people of interest, and doctors and lawyers in the general area. It took us 11 months to create the initial database and to our knowledge is the only one of its kind and specificity that exists. We constantly monitor this database to make sure we keep up with the changes that occur on a weekly basis.
- We plan to continue the current mailing campaign to all property owners on the lakes at a pace of 2 to 3 times per month
- We plan to send PowerKards and/or letters to any cold leads that we receive as well as to past customers and clients and our current lake farming area.
- As we have a history with the current lake residents spanning back to 1991, we also have an excellent list of past customers and clients. This list added to the additional lists acquired through research and the hiring of additional lake agents with experience gives us a means of creating a greater chance of sell.
- The leads will be followed up with by phone calls within our office.

List Management

We will continue to stay on top of all people who inquire about this property. They may be interested in this one or another in our inventory. This works well for you as the seller of the property in that the group of 70+/- properties that we represent will also create potential purchasers for your property. Our job is to keep up with these folks consistently until they purchase a piece of property on Lake Keowee or decide to purchase elsewhere.

Telemarketing

- Will be used to follow up with leads as well as to contact past customers and clients in concert with the direct mail plan.
- Also, we will set up appointments with connectors and influencers for meetings, tours, lunches, etc.

- Telephone technique is a critical skill in making this and all projects work successfully. We are highly trained and experienced in this area.

Sphere of Influence/Past Customers and Clients

- As explained above we intend to leverage our history on Lakes Keowee and Jocassee through contact with these groups of people.
- The best way to find people to buy something is to talk to people who have already purchased it.

Signage

- We intend to place signs at the top and bottom of the lots with information boxes. Our signs are some of the best in the industry with proven ability to maximize exposure for your properties.
- But signage does not just refer to onsite signs for this property; it also refers to all signs in the market place that may generate interest in the property. We currently have in excess of 200 signs in the market place each with the ability to create a lead that may be interested in this property, and we are well trained in the ability to convert these sign calls to tours.

Magazines/Newspapers

- Magazines and newspapers, while still a viable means to create leads, have fallen dramatically in the past few years. Their best use is to back up other forms of advertising by pushing people to call or visit Web sites to get required information.
- We plan to use these tools to finish out the necessary frequency requirements to create responses.
- Currently your property will be advertised in Homes and Land and The Real Estate Book.

Billboards

- As explained above signage (all signage working together) is an incredible tool in creating interest.

- We have 4+ Mike Roach specific billboards. They are spread strategically in the lake areas. This combined with other forms of advertising will again serve to increase the frequency with which the consumer hears our message.

Television

- We have consistently run Mike Roach “The Perfect Fit” commercials over the past year.
- We have begun to advertise on FoxCarolina.com. Reaching approximately 600,000 people.

Client Follow up campaign

We realize that keeping in touch with you over the life of your listing period with us is essential to a positive outcome. To that end we have created and implemented the communication plan below.

Compensation Package

We look to be able to provide this entire package. In order to do this we require:

A 5% commission for the listing side of the transaction and a 5% commission to be paid out on the selling side of the transaction.
