Keowee Elementary recipient of Duke Energy Volunteer Grants

FOR THE JOURNAL

SENECA — Keowee Elementary School was excited to learn that the school is the recipient of two Duke Energy Volunteer Grants in the amount of $1,000 each. The funds awarded will be used specifically to support two projects on the school campus. Volunteers will be erecting an arbor to enhance a current outdoor space used by teachers and students for art and science explorations. In addition, they will be upgrading an outdoor learning lab to make it a safer and more inviting area for students and teachers.

According to Assistant Principal Rhonda Grant, "Because of the generosity and vision of the Duke Energy Foundation, we will be able to improve our campus and enhance the learning environment of our students. We want to convey our thanks to everyone for affording our school this wonderful opportunity." The Duke Energy Volunteer Grant is provided to encourage employees and retirees to actively participate in civic projects in the communities in which they live and work. The goal of the Foundation is to help improve the communities where they operate through civic volunteerism.
