Opinion

Kudos to Devils Fork staff for finding lost pet

Editor,

Our cat eloped from our truck as we were leaving Devils Fork State Park campground on Sept. 3. We advised Ranger Mahoney and the camp hosts, John and Kim Cote.

Five days later we returned to post reward signs with the cat's picture. Mr. Chad Walsh, security, said that he would let us know if our cat was seen or found. He did follow up with a call stating that our cat, Sadie, was seen in the maintenance workshop area but she ran off.

This past weekend, we came back to Devils Fork from Pittsburgh to look for Sadie knowing that the chances of finding her in the forest were slim to none. Mr. Bobby Mosley told us that our cat hadn't been seen since Wednesday nor could he guarantee that it was our cat. He did suggest a few places to start our search.

Three hours later we found Sadie.

We will be ever thankful for the caring staff, their communications and observations and their concern and assistance in finding Sadie. Their compassion and helpfulness went beyond the call of duty. It was more than a job well done.

Please accept our sincerest gratitude for the superior job you all are doing in the State Park service departments.

Shirley and Bob Graw
