After January 1, 2008, maintenance and repair of the Private Road shall be the sole responsibility of the Association. The Association reserves the right to dedicate the Private Road to public use and maintenance if the Oconee County Public Works Department or other governmental entity determines in the future that the Private Road can be dedicated to the public and is accepted for public maintenance.

Section 5.1. Creation of the Lien and Personal Obligation for Annual, Supplemental Annual, Special and Special Individual Assessments. Declarant, for each Lot owned within the Property, covenants, and each Owner of any Lot by acceptance of a deed, whether or not it is expressed in such deed, is deemed to covenant and agrees to pay to the Association Annual Assessments, Supplemental Annual Assessments, Special Assessments and Special Individual Assessments. Any such Assessment, together with interest, costs, and reasonable attorneys' fees, shall be a charge and a continuing lien upon the Lot against which each such Assessment is made, and the personal obligation of the Owner of the Lot at the time the Assessment fell due. The personal obligation for delinquent Assessments shall not pass to an Owner's successors in title unless expressly assumed by them, provided such Assessments, together with interest, costs, and reasonable attorneys' fees, shall be a continuing lien upon the Lot against which such Assessments are made.

Section 5.2. Purpose of Annual Assessment. The Assessments levied annually by the Association against each Lot ("Annual Assessments") shall be used as follows:

- 5.2.1. to repair, maintain, reconstruct (when necessary) and keep clean and free from debris the Common Areas and any Improvements located thereon, and to maintain the landscaping in accordance with standards in comparable developments within the vicinity of the Development;
- 5.2.2. to maintain and repair the Private Road to the standards of the maintenance which would be required by the Oconee County Public Works Department;
- 5.2.3. to pay all costs associated with the lease of the Street Lights, including, but not limited to, monthly lease payments and utility costs;
- 5.2.4. to maintain appropriate street signage, stop signs and other community directional and informational signage of architectural quality;
- 5.2.5. to pay all ad valorem taxes levied against the Common Areas and any other property owned by the Association;
- 5.2.6. to pay the premiums on all insurance carried by the Association pursuant to this Declaration or the Bylaws;
- 5.2.7. to pay all legal, accounting and other professional fees incurred by the Association in carrying out its duties in this Declaration or the Bylaws; and
- 5.2.8. to maintain a reserve fund for the purposes set forth in Section 4.7 in amounts determined by the Board.

Section 5.3. Payment of Annual Assessments; Due Date. Annual Assessments shall commence as to each Lot in January, 2008. The Annual Assessment for each year shall be in an amount as set by the Board, in accordance with Section 5.4, and shall be due and payable in one annual payment, such payment being due and payable no later than January 31 of each such year. The Board shall fix the amount of the Annual Assessment as to each Lot for any calendar year at least thirty (30) days prior to January 1<sup>st</sup> of such calendar year, and the Association shall send written notice of the amount of the Annual Assessment, as well as the amount of the payment due, to each Owner on or before January 5<sup>th</sup> of such calendar year. The failure of the Association to send, or of a Member to receive, such notice shall not relieve any Member of the obligation to pay Annual Assessments. Notwithstanding the forgoing, the Board may alter the dates of the fiscal year for setting the Annual Assessments, and may increase or decrease the frequency of the collection of the Annual Assessments (or installments thereof) in any reasonable manner.

Section 5.4. Maximum Annual Assessment.

- 5.4.1. After the first year of Annual Assessments, the Board may increase the Annual Assessment each year (without a vote of the Members), by a

maximum amount equal to the previous year's Annual Assessment times the greater of (i) ten percent (10%) or (ii) the annual percentage increase in the CPI. If the Annual Assessments are not increased by the maximum amount permitted under the terms of this provision, the difference between any actual increase which is made and the maximum increase permitted for that year shall be computed and the Annual Assessments may be increased by that amount in a future year, in addition to the maximum increase permitted under the terms of the preceding sentence for such future year, by a vote of the Board, without a vote of the Members.

- 5.4.2. After the first year of Annual Assessments, the maximum Annual Assessment may be increased above the maximum amount set forth in Section 5.4.1 by a vote of a majority of the votes appurtenant to the Lots which are then subject to this Declaration, plus the written consent of Declarant (so long as Declarant owns any part of the Property).
- 5.4.3. The Board may fix the Annual Assessment at an amount not to exceed the maximum set forth in Section 5.4.1 (the "Maximum Annual Assessment"). If the Board levies less than the Maximum Annual Assessment for any calendar year and thereafter, during such calendar year, determines that important and essential functions of the Association cannot be funded by such lesser amount, the Board may, by vote in accordance with the Bylaws, levy a supplemental Annual Assessment ("Supplemental Annual Assessment"). The sum of the Annual Assessment and Supplemental Annual Assessment for any year shall not exceed the applicable Maximum Annual Assessment for such year, other than as set forth herein.

Section 5.5. Special Assessments for Capital Improvements. In addition to the Annual Assessment authorized above, the Association may levy, in any assessment year, a special assessment ("Special Assessment") applicable to that year only for the purpose of defraying, in whole or in part, the cost of (i) the construction of any Common Area Improvements which are not originally constructed by Declarant; or (ii) the reconstruction, repair or replacement of the Common Areas, including Improvements, fixtures and personal property. Provided, however, any such Special Assessment must be approved by Declarant (so long as Declarant owns any part of the Property) and by a vote of a majority of the votes appurtenant to the Lots which are then subject to this Declaration.

Section 5.6. Special Individual Assessment. In addition to the Annual Assessments and Special Assessments authorized above, the Board shall have the power to levy a special assessment applicable to any particular Lot Owner ("Special Individual Assessment") (i) for the purpose of paying for the cost of any construction, reconstruction, repair or replacement of any damaged component of the Common Areas, whether caused by any act or omission of such Lot Owner(s), members of such Lot Owner's family, or such Lot Owner's agents, guests, employees or invitees and not the result of ordinary wear and tear; or (ii) for payment of fines, penalties or other charges imposed against any particular Lot Owner relative to such Lot Owner's failure to

comply with the terms and provisions of this Declaration, the Bylaws, or any rules or regulations promulgated by the Association or Declarant pursuant to this Declaration or the Bylaws. Provided, however, Declarant shall not be obligated to pay any Special Individual Assessment, except with Declarant's prior written approval. The due date of any Special Individual Assessment levied pursuant to this Section 5.6 shall be fixed in the Board's resolution authorizing such Special Individual Assessment. Upon the establishment of a Special Individual Assessment, the Board shall send written notice of the amount and due date of such Special Individual Assessment to the affected Owner(s) at least thirty (30) days prior to the date such Special Individual Assessment is due.

Section 5.7. Assessment Rate.

- 5.7.1. Subject to the exception set forth in Section 5.7.2, Annual Assessments, Supplemental Annual Assessments, and Special Assessments must be fixed at a uniform rate for all Lots.
- 5.7.2. Annual Assessments, Supplemental Annual Assessments, and Special Assessments for each Lot owned by Declarant shall be one-third (1/3) of the amount of the Annual Assessments, Supplemental Annual Assessments, and Special Assessments for each other Lot in the Subdivision not owned by Declarant.

ARTICLE VI

SEPTIC SYSTEM ASSESSMENTS

Section 6.1. Creation of the Lien and Personal Obligation for Septic System Assessments. Declarant, for each Lot owned within the Property, covenants, and each Owner of any Lot by acceptance of a deed, whether or not it is expressed in such deed, is deemed to covenant and agrees to pay to the Association, Septic System Assessments for the inspection of each Lot Owner's Septic System. Each Septic System Assessment, together with interest, costs, and reasonable attorneys' fees, shall be a charge and a continuing lien upon the Lot against which the Septic System Assessment is made. Each Septic System Assessment, together with interest, costs and reasonable attorneys' fees, shall also be the personal obligation of the Owner effective at the time when the Septic System Assessment falls due. The personal obligation for delinquent Septic System Assessments shall not pass to an Owner's successors in title unless expressly assumed by them, provided such Septic System Assessments, together with interest, costs, and reasonable attorneys' fees, shall be a continuing lien upon the Lot against which such Septic System Assessments are made.

Section 6.2. Purpose of Septic System Assessments. The Septic System Assessments levied annually by the Association against each Lot upon which a Septic System has been constructed shall be used to inspect each Lot's Septic System to ensure such Septic Systems are in compliance with any requirements imposed by the Association or any governmental authority, as set forth in the Association's contract with a contractor who performs the Septic System inspections.

Section 6.3. Payment of Septic System Assessments; Due Date. The Septic System Assessments shall be payable, annually, in advance, and shall commence as to each Lot, and shall be due and payable by January 31<sup>st</sup> of the calendar year following the system installation. The initial Septic System Assessments for 2008 applicable to all Lots (for the calendar year in which construction is completed on such Lot) shall be established by the Board. Septic System Assessments for each year thereafter shall be payable no later than January 31<sup>st</sup> of such year, as established by the Board, subject to annual increases in accordance with Section 6.4.

The Board shall fix the amount of the Septic System Assessment for each year at least thirty (30) days prior to January 1<sup>st</sup> of such year, and the Association shall send written notice of the amount of the Septic System Assessment to each Lot Owner on or before January 5<sup>th</sup> of such year. Failure of the Association to send the notice described in this Section 6.3 shall not relieve the Owners of their liability for Septic System Assessments. Notwithstanding the forgoing, the Board may alter the dates of the fiscal year for setting the Septic System Assessments, and may increase or decrease the frequency of the collection of the Septic System Assessments (or installments thereof) in any reasonable manner.

Section 6.4. Maximum Septic System Assessment.

- 6.4.1. For years following the first year of Septic System Assessments and thereafter, the Board may increase the Septic System Assessment each year (without a vote of the Members) by a maximum amount equal to the previous year's Septic System Assessment times the greater of (i) twenty percent (20%), or (ii) the annual percentage increase in the CPI. If the Septic System Assessments are not increased by the maximum amount permitted under the terms of this provision, the difference between any actual increase which is made and the maximum increase permitted for that year shall be computed and the Septic System Assessments may be increased by that amount in a future year, in addition to the maximum increase permitted under the terms of the preceding sentence for such future year, by a vote of the Board, without a vote of the Members.
- 6.4.2. The Board may fix the Septic System Assessment at an amount not in excess of the maximum set forth in Section 6.4.1 (the "Maximum Septic System Assessment"). If the Board levies less than the Maximum Septic System Assessment for any calendar year and thereafter, during such calendar year, determines that important and essential functions of the Association cannot be funded by such lesser amount, the Board may, by vote in accordance with the Bylaws, levy a Supplemental Septic System Assessment. The sum of the Septic System Assessment and Supplemental Septic System Assessment for any year shall not exceed the applicable Maximum Septic System Assessment for such year, other than as set forth herein.

Section 6.5. Assessment Rate. Septic System Assessments and Supplemental Septic System Assessments shall be fixed at a uniform rate for all Lots.

## ARTICLE VII

### GENERAL ASSESSMENT PROVISIONS

Section 7.1. Certificate Regarding Assessments. The Association shall, upon demand, and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether the Assessments on a specified Lot have been paid. A properly executed certificate of the Association as to the status of Assessments on a Lot is binding upon the Association as of the date of its issuance.

Section 7.2. Effect of Nonpayment of Assessments; Remedies of the Association. Any Assessment not paid by its due date, shall bear interest from such due date at the rate of eighteen percent (18%) per annum or the highest rate then permitted by law, whichever is less. In addition to such interest charge, the delinquent Owner shall also pay late charges as established by the Board to defray the costs arising because of late payment. The Association may bring an action at law against the delinquent Owner (or foreclose the lien against the Lot), and interest, late payment charges, costs and reasonable attorneys' fees related to such action or foreclosure shall be added to the amount of such Assessment. No Owner may waive or otherwise escape liability for the Assessments by not using the Common Areas.

Section 7.3. Subordination of the Lien to Mortgages. The lien of any Assessments shall be subordinate to the lien of any first Mortgage on a Lot. Sale or transfer of any Lot shall not affect the Assessment lien. The sale or transfer of any Lot pursuant to a mortgage foreclosure under any first Mortgage on a Lot, or any proceeding in lieu thereof, however, shall extinguish the lien of such Assessments as to payments which became due prior to such sale or transfer; provided, however, that the Board may in its sole discretion determine such unpaid Assessments to be collectable pro rata from all Owners. No sale or transfer shall relieve the purchaser of such Lot from liability for any Assessments which become due after the transfer. The lien of such Assessments shall continue to be subordinate to the lien of any first Mortgage on a Lot.

## ARTICLE VIII

### RESTRICTIONS

Section 8.1. Land Use, Building Type and Single-Family Residential Restriction. All Lots in the Subdivision shall be used only for single-family residential purposes. No structure shall be erected, altered, placed or permitted to remain on any Lot other than for use as a single-family residential Dwelling. Only one Dwelling not exceeding 2½ stories in height above ground shall be erected or permitted to remain upon any Lot. No log cabin (or structure resembling a log cabin, or having the architectural characteristics of a log cabin), mobile home, modular home, pre-manufactured home, pre-engineered home or shell home may be erected or permitted to remain on any Lot. Carports (i.e., covered, open air structures) and detached garages or outbuildings (i.e., any structure that does not share a common wall with the Dwelling)

are not permitted. The Dwelling must be stick built on the Lot. Any ownership or leasing arrangement for a Lot having the characteristics of a vacation time-sharing ownership plan, a vacation time-sharing lease plan or any other form of interval, sequential or shared ownership is expressly prohibited. Furthermore, no boat (including, without limitation, a houseboat), whether existing on a Lot or docked at a fixed pier or floating boat dock that is appurtenant to any property in the Subdivision, may at any time be used as a Dwelling.

Section 8.2. Dwelling Structure Size Restrictions. Any one (1) story Dwelling erected upon any Lot shall contain not less than two thousand (2,000) square feet. Any multi-story Dwelling shall contain not less than two thousand four hundred (2,400) square feet, and the first floor shall contain not less than one thousand six hundred (1,600) square feet. The first floor shall be considered the floor on which the main entrance of the Dwelling exists. The square footage requirements refer to enclosed heated floor area and are exclusive of the area in unfinished basements, unheated porches of any type, attached garages, and unheated storage areas, decks or patios. Dwelling height shall not exceed 2½ stories, excluding basements or lower levels.

Section 8.3. Building Construction and Quality. Dwellings and boat docks shall be constructed of new material of good grade, quality and appearance and shall be constructed in a proper, workmanlike manner. No Dwelling with a fair market value of less than Three Hundred Thousand Dollars (\$300,000) (in terms of 2007 dollar value), exclusive of the cost of the Lot, shall be permitted on any Lot. No building shall be erected unless it is completely underpinned with a solid brick, brick or stone-covered block or stucco foundation. No exterior surface of any building shall be asbestos shingle siding, vinyl siding, red brick, imitation brick or stoneroll siding, or exposed concrete or cement blocks.

Section 8.4. Exterior Materials and Colors. Exterior materials shall be stucco, stone, cedar shake, Hardiplank, or horizontal siding, and brown or tan colored brick. Red brick Dwellings are not permitted. Post and beam accents are encouraged. When there is a change of material from front to side, front veneer material must be wrapped to cover 24" of the adjoining side. The practical exception to this would be a cedar shake and lap siding combination. Horizontal siding used must be fully back-supported to maintain a straight and even outer surface and must be fully and properly finished. Natural weathering of exterior wood materials is not desired. Vinyl siding is not permitted. Dwellings shall use the same or similar exterior materials on all sides of the structure. Permitted primary colors are subdued earth tones of tan, brown, gray, or green and permitted accent colors are subdued shades of red, green, gray, tan or cream, unless otherwise approved by the Board.

Section 8.5. Roofs. Roofs and roof pitches shall be in proportion to the overall size and shape of the Dwelling with a minimum overhang of 12 inches. The minimum roof slope for the main Dwelling structure shall be six (6) vertical to twelve (12) horizontal and the maximum roof slope shall be twelve (12) vertical to twelve (12) horizontal with a twelve inch overhang. Steep roofs that incorporate traditional dormer or shed roof elements with pitches of 5:12 to 12:12 are generally acceptable. Double pitch roofs may utilize a minimum 9:12 roof for the main body of the roof and a minimum 6:12 roof over the porch elements. Shed roof elements may utilize 2:12 to 4:12 pitches. Acceptable roofing materials are (i) wood shingles, (ii) wood shakes, (iii) natural or man-made slate, (iv) tile or (v) minimum twenty-five (25) year warranty,

variegated (not solid) color, dimensional architectural (sculpted) style, composition (fiberglass) shingles. Gutters and downspouts that drain water from roofs, designed to empty into natural drainage systems such as crushed rock beds or grass-lined swales, must carry water away from foundations, paved surfaces and adjoining Lots. Tin or rolled roofing material is permitted as accent material only on less than twenty percent (20%) of the roof surface area.

Section 8.6. Definition of Improvements. The term "Improvement" or "Improvements" shall mean any and all man-made changes or additions to a Lot, including, but not limited to, the location, materials, size and design of all Dwellings and buildings (including any exterior devices attached to or separate from Dwellings or buildings, such as heating and air conditioning equipment, solar heating devices, antennae, satellite dishes); piers, docks, boatslips; roofed structures; parking areas; fences; statuaries and fountains; pet "runs," lines and similar tethers or enclosures; landscaping (including cutting trees); hedges; mass plantings; irrigation equipment, apparatus and systems; driveways; signs; site preparation; changes in grade or slope; exterior illumination; and changes in any exterior color or shape. The definition of Improvements includes both original Improvements and all later changes to Improvements.

Section 8.7. Setback Lines. No Improvements on any Lot (including any stoops, porches, or decks) shall be erected or permitted to remain within the front (street right-of-way), side (abutting right-of-way for a corner Lot) or rear building setback lines as noted on the Map or within the Lake Buffer Area. Piers and dock facilities are exempt from the rear setback restrictions. Driveways, which are connected to the residence and are not covered or enclosed in any manner, may encroach within the front and side setback, provided that such encroachment does not violate any applicable governmental requirement. If any zoning or subdivision ordinance, floodway regulations or other ordinance, law or regulation applicable to a Lot prescribes greater setbacks, then all buildings erected during the pendency of that zoning or subdivision ordinance, floodway regulations or other ordinance, law or regulation shall be governed by the greater setbacks unless otherwise shown on the Map: (a) front setbacks for Lots that front on the Private Road are 40 feet from the front property line adjacent to the Common Area on which the Private Road is constructed; (b) side setbacks are 10 feet from the property line; and (c) rear setbacks for Waterfront Lots are 50 feet from the 800' MSL contour or 5 feet from the 804' MSL contour, whichever is greater. While currently all Lots are Waterfront Lots, in the event that Lot 11 is subdivided pursuant to Section 8.9 so that both resulting Lots are not Waterfront Lots, the rear setback for the non-Waterfront Lot shall be 35 feet from rear property line.

Section 8.8. Minor Setback Violations. In the event of the unintentional violation of any of the building setback restrictions, in the amount of ten percent (10%) or less of the applicable setback restriction, Declarant reserves the right, but is not obligated, to waive in writing such violation of the setback restrictions upon agreement of the Owner of the Lot upon which the violation occurs and the Owner of any Lot adjoining the violated setback, provided that such change is not in violation of any zoning or subdivision ordinance or other applicable law or regulation or, if in violation, only if a variance or other similar approval has been received from the appropriate governmental authority.

Section 8.9. Subdivision and Combination of Lots. Except as otherwise set forth herein, no Lot shall be subdivided by sale or otherwise to reduce the Lot area shown on the Map

except by Declarant. However, a Lot Owner may combine one Lot with contiguous Lot(s) so long as the parcel or parcels which result from such combination do not violate any applicable zoning ordinance, subdivision ordinance or other applicable law or regulation. Furthermore, the Owner of any Lot which combines with all or a portion of a contiguous Lot shall be solely responsible for any costs which may result from such combination, including the costs of relocating any existing easements. Declarant specifically reserves the right of Lot 11 to subdivide into two Lots, providing that both resulting Lots are at least one acre in size, get access through the Private Road and are subject to Assessments. Notwithstanding the foregoing, Declarant reserves the right to change the boundaries or dimensions of any Lots still owned by Declarant as may be needed to meet Septic System requirements or for any other reason and any Lot or Lots which result from such change by Declarant shall not be subject to any additional Assessment.

Section 8.10. Utilities and Maintenance within Utility Easements. Declarant reserves certain easements for the installation and maintenance of utilities (electricity, septic system, water, gas, telephone, cable television, etc.) as set forth in Section 11.6. Additional utility easements are reserved as more particularly shown and delineated on the Map of the Subdivision and in other recorded easement documents. Within such easements, no structure, planting or other materials shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities or which may interfere with drainage and the flow of water within the easement areas. The Owner of each Lot shall maintain that portion of the Lot lying within the easement areas as defined herein and shall maintain any Improvements located thereon, except those Improvements installed and maintained by a public authority or utility company. All utilities and utility connections shall be located underground, including electrical, telephone and cable television lines. Transformers, electric, gas or other meters of any type, or other apparatus shall be located at the rear of the Dwellings or Improvements constructed on Lots. Declarant reserves the right to create and impose additional easements over any unsold Lot or Lots for road drainage, utility and entry signage installation purposes by the recording of appropriate instruments, and such easements shall not be construed to invalidate any of these covenants.

Section 8.11. Storm Drainage Facility Maintenance. Declarant reserves easements for storm drainage facilities as set forth in Section 11.6. Additional drainage easements are reserved as more particularly shown and delineated on the Map and in other recorded easement documents, including the following: (a) a 40' drainage easement along the boundary line between Lot 9 and Lot 10, and (b) a 20' drainage easement, of which 10' is on the northern boundary line of Lot 11. Within such easements, no structure, planting or other materials shall be placed or permitted to remain which may damage or interfere with the installation and maintenance of utilities or which may interfere with drainage and the flow of water within the easement areas. The Owner of each Lot shall maintain that portion of the Lot lying within the easement areas as defined herein and shall maintain any Improvements located thereon, except those Improvements installed and maintained by a public authority or utility company. Each Owner is responsible for keeping the storm drainage easement areas on their Lot clean and free from debris. If an Owner fails to do so, the Association has the right to hire a contractor to undertake such maintenance responsibilities and the cost shall be charged to the Lot Owner as a Special Individual Assessment against their Lot. Provided, however, if an outfall or storm drainage facility breaks underground, to the extent that the public authority or utility company

does not make appropriate repairs, the Association reserves the right to hire a contractor and pay for such repairs through the Annual Assessment (or, if necessary, through a Special Assessment).

Section 8.12. Fences and Walls. No fences or walls may be erected nearer the front lot line of a Lot than the front face of the Dwelling located on such Lot. No wooden fences or brick or stone walls greater than six (6) feet in height are permitted. Chain link or other metal fencing is also not permitted, except for black wrought iron fencing, which is permitted. However, 2" x 4" metal mesh may be used with split rail fencing to contain animals or children within rear or side yards. Perimeter fencing shall not have more than fifty percent (50%) of any of its surface closed as viewed from a point on a line of sight perpendicular to the line of the fence (the "Openness Test"). A wall constructed of brick or stone and used in lieu of a fence is exempt from the Openness Test.

Section 8.13. Signs. No signs of any kind may be displayed to the public view on any Lot, with the following exceptions which may not exceed four (4) feet in height or five (5) square feet in size excluding staking: (a) one sign (on the Lot only) advertising the Property for sale or rent; (b) one sign on the Lot only used by a builder to advertise the Lot during the construction and sales period; and (c) temporary political signs. These restrictions shall never apply to temporary entry signs or advertising by Declarant, or for sale signs installed by Declarant or its agents prior to the sellout of the Subdivision.

Section 8.14. Antennas; Satellite Dishes or Discs. No radio or television transmission or reception towers, antenna, satellite dishes or discs shall be erected or maintained on any Lot, except that one (1) dish or disc not exceeding one (1) meter in diameter or diagonal measurement for receiving direct broadcast satellite service ("DBS") or multi-point distribution services ("MDS") may be erected and maintained on each Lot. No roof-mounted antenna, dishes or discs for DBS or MDS service shall be permitted on any Lot if adequate broadcast reception can be obtained without mounting such equipment on the roof of the Dwelling. If roof-mounted equipment is required, no antenna or related structures may be mounted on masts exceeding twelve (12) feet in height above the highest roof line ridge of the Dwelling. Any dish, disc, or antenna (with associated mast) shall be professionally installed and reasonably camouflaged and screened from view from Lake Keowee and the public road on which the Lot fronts, and shall not be located in the area between the street right-of-way line and the minimum building setback lines applicable to the Lot. In cases where an antenna wire does not require the use of a mast, landscaping or some other means to reduce its visual impact must camouflage such wire.

Section 8.15. Lot Maintenance; Trash Disposal. Each Owner shall keep his Lot, and the area adjacent to the Lot between the edge of the Private Road easement and the edge of the pavement or curb, in a clean and orderly condition and shall keep the Improvements in a suitable state of painting and repair, promptly repairing any damage caused by fire or other casualty. No clothes line may be erected or maintained on any Lot. No Lot shall be used in whole or in part for storage of trash of any kind whatsoever and no trash, rubbish, stored materials or similar unsightly items shall be allowed to remain on any Lot outside of an enclosed structure, except when temporarily placed in closed, sanitary containers pending removal by trash collection authorities or companies.

Section 8.16. Off-Road Parking; Off-Water Boat Storage. Prior to the occupancy of any Dwelling, each Lot Owner shall provide an attached garage and a concrete or asphalt driveway that provides space for parking at least two (2) vehicles. No recreational vehicles or related equipment, including any boat, houseboat, trailer, motor home or "camper" vehicle may be maintained, stored or kept on any portion of the Property, except in enclosed garages, and may never be used as a residence. All vehicles must have a current license plate affixed and all vehicles must be parked in an enclosed attached garage, or on a concrete or asphalt driveway.

Section 8.17. Sewage Disposal. Every Dwelling erected on any Lot shall be served by a individual on-site septic system approved by the South Carolina Department of Health and Environmental Control ("DHEC") for the disposal of domestic sewage, or connected to a private or public sewage disposal system. All septic systems or other private sewage disposal systems shall be approved by, and constructed and maintained in accordance with, all the regulations and requirements of all governmental authorities and regulatory agencies having jurisdiction. Also, every septic system must be installed with a filter and "riser" to facilitate inspection. Each owner shall furnish to the Board a copy of the DHEC approval for the Septic System installed upon such Owner's Lot immediately following such Owner's receipt thereof. By purchasing a Lot, each Owner acknowledges that any governmental permit or approval allowing for the construction and operation of a Septic System may be limited in duration in accordance with its terms, and neither Declarant, nor the Association, nor the officers, directors, members, employees, agents or affiliates or any of them, shall have any liability, directly or indirectly, based on the inability of an Owner to obtain any such permit or approval (including an extension or continuation) following its initial expiration.

The Owner of the Lot for which a Septic System is being installed shall be responsible for obtaining all necessary environmental permits and other permits for the use of the Septic System and shall hold harmless Declarant, the Association, its successors and assigns, from any loss, damage or liability relating thereto, except to the extent that such loss, damage or liability results from the negligent act or omission or willful misconduct of Declarant, the Association, its successors and assigns, or its officers, directors, agents, employees, members, invitees or licensees. Prior to the installation of a Septic System, the Owner of the Lot shall have the proposed location of such Septic System staked and approved by the appropriate governmental authorities, and such Septic System shall be approved by, and constructed and maintained in accordance with all regulations and requirements of all governmental authorities and regulatory agencies of competent jurisdiction. The Owner of the Lot shall be responsible for operating and maintaining the Septic System at the Owner's sole cost and expense.

Section 8.18. Public Water System; No Wells. Declarant shall cause a public water system to be constructed to provide water supplies necessary to serve the Subdivision (the "Water System"). All water mains, pipes and other equipment necessary for the operation and maintenance of the Water System shall be located within the utility easements described in Section 8.10, or within Private Road easements. The Water System and all mains, pipes, equipment and other personal property which is part thereof, is the property of the Seneca Light and Water Plant, a public utility company duly licensed and operating under the authority granted by the South Carolina Public Service Commission. The Water System shall be the sole source of potable water for the Subdivision, and no well may be dug or constructed on any Lot for the purpose of providing a domestic water supply.

Section 8.19. Nuisances. No noxious or offensive trade or activity shall be carried on or upon any Lot, nor shall anything be done thereon which may be or become an annoyance or nuisance to the other Owners in the Subdivision. No substance, thing or material shall be kept upon any Lot that will emit foul or obnoxious odors, or that will cause any noise that will or might disturb the peace and quiet of the occupants of surrounding property. No hunting is permitted on any part of the Subdivision. No plants, animals, devices or things shall be maintained on any Lot whose activity or existence in any way is noxious, dangerous, unsightly, unpleasant or of a nature as may diminish or destroy the enjoyment of the Subdivision. Without limiting the generality of the foregoing, no speaker, horn, whistle, siren, bell, amplifier or other sound device, except such devices used exclusively for security purposes, shall be located, installed or maintained upon the exterior of any Lot unless required by law.

Section 8.20. Removal of Trees and Other Vegetation. All trees, shrubs and ground cover within the Lake Buffer Area are considered to be "Protected Vegetation" in that cutting and clearing is not permitted without the prior written consent of Declarant. Subject to local ordinances and Duke Energy Lake Services' Shoreline Management Guidelines, the practical exceptions to this rule are that dead or diseased trees and poisonous plants may be removed, underbrush may be selectively cleared within two (2) feet of the ground, individual trees may be limbed up to one-third (1/3) of the tree height, and ground covers may be planted, and a four (4) foot path may be cleared to provide access to piers. Lawn grass such as fescue, Bermuda, Zoysia, and centipede must not be planted inside the Lake Buffer Area. In addition to the Protected Vegetation within the Lake Buffer Area, any "Mature Trees" on the Lot that are more than twenty (20) feet from the footprint of the Dwelling or more than five (5) feet from the driveway may not be cut down or otherwise removed without the written approval of the Board. For purposes of this Declaration, "Mature Trees" shall mean all evergreen or deciduous trees with a caliper of four (4) inches or greater.

Section 8.21. Replacement of Damaged or Destroyed Trees. Declarant reserves the right and easement to go upon any Lot or other portion of the Property to replant or order the replanting of any trees, shrubs or other vegetation removed within the Subdivision in violation of the terms of Section 8.20. If Declarant exercises its easement rights pursuant to the terms of this Section 8.21, the Owner of the nonconforming Lot shall reimburse Declarant within fifteen (15) business days following the submission of an invoice for any costs or expenses incurred. The exercise or non-exercise of the easement rights contained in this Section 8.21 shall be subject to the discretion of Declarant, provided that Declarant, shall not have the obligation to exercise such rights. The Property shall be subject to all easements and rights-of-way for utilities and drainage shown on the Maps, including, but not limited to, those certain easements shown and designated on the Maps, including without limitation, those easements described in Section 8.10 and Section 8.11. Such easements are reserved for the use of Declarant, its successors and assigns, and are established for the use of the Association, its successors and assigns. In addition, Declarant reserves, for the benefit of itself, its successors and assigns, and grants to the Association, its successors and assigns, a non-exclusive easement over, under and along the front and rear ten (10) feet of each Lot (with the exception of the Waterfront Lots, which will not have a ten (10) foot easement over the rear), as well as over, under and along seven and one-half (7.5) feet in width along each side Lot line for the installation and maintenance of lines, conduits, pipes and other equipment necessary for furnishing electric power, gas, telephone service, cable service, water, irrigation, septic sewer and drainage facilities, storm drainage and/or other utilities.

Section 11.7. Declarant's Right to Assign Easements and Maintenance of Easement Areas. Declarant shall have the right to assign and convey, in whole or in part, the reserved easements under this Declaration. The areas burdened by the easements and rights-of-way reserved by Declarant on each Lot or other portion of the Property, including any Improvements in such areas, which are not to be maintained by the Association or a public authority or utility, shall be maintained continuously by each Owner of such Lot or other portion of the Property, but no structures, plantings or other material shall be placed or permitted to remain upon such areas or other activities undertaken thereon which may damage or interfere with the installation or maintenance of utilities or other services, or which may retard, obstruct or reverse the flow of water or which may damage or interfere with established slope ratios or create erosion problems. Declarant and/or the Association may exercise the rights reserved in this ARTICLE XI for the purpose of enforcing the provisions of this Section 11.7. The Association and/or Declarant shall have the right, but not the obligation, to maintain the landscaping in the easement areas reserved on any Lot.

Section 11.8. Easement Reserved for the Association and Declarant. Declarant reserves full rights of access, ingress and egress for itself and the Association at all times over and upon any Lot or other portion of the Property for the exercise of the easement rights described in this ARTICLE XI, as well as the maintenance and repair rights described below, and for the carrying out by Declarant or the Association of its rights, functions, duties and obligations under this Declaration. Any such entry by Declarant or the Association upon any Lot shall be made with minimum inconvenience to the Owner as is reasonably practical, and any damage caused as a result of the gross negligence of Declarant, the Association or their respective employees or agents shall be repaired by and at the expense of Declarant or the Association, as the case may be.

Section 11.9. Duke Easements. Duke has reserved easements and right with respect to the Subdivision for the following purposes:

- 11.9.1. the right to clear and flood property up to the elevation of 810 feet above mean sea level, USGS Datum, in connection with the operation of its hydroelectric power facility. This affects all of the Waterfront Lots in the Subdivision and includes the right of ingress and egress over the Private Road in the Subdivision for the purpose of exercising the clearing and flooding rights; and
- 11.9.2. the right to erect and maintain electric transmission and communication lines within the Subdivision, including the right to clear obstructions or hazards within the areas in which such transmission or communication lines are located (as well as rights of ingress and egress for those purposes).

Section 11.10. Easement Over Private Road. Each Lot Owner has a non-exclusive easement over the respective Private Road to access their Lot. All Lot Owners are required to maintain the portion of their Lot which abuts the Private Road. All Lot Owners shall mow the grass and maintain the portion of their Lot which is adjacent to the Private Road, and keep it free from trash and debris.

Section 11.11. Right to Grant Additional Easements. Declarant shall have the right to grant over, under, across and upon the Common Areas until conveyed to the Association and any portion of the Property owned by Declarant any easements, rights-of-way, licenses of other rights which may be necessary or desirable for the development of the Subdivision or to exercise its reserved rights under Section 11.1. The Board shall have the right to grant such easements, rights-of-way, licenses and other rights over, under, across and upon the Common Areas in accordance with or to supplement the provisions of this Declaration or as may otherwise be necessary or desirable for the development of the Subdivision, by the execution, without further authorization, of such grants of easement or other instruments as may, from time to time, be necessary or desirable, in its sole discretion. Such easements may be for the use and benefit of Persons who are not Association Members or Owners.

Section 11.12. No Merger of Easements. The easements established shall not be terminated by merger or otherwise, except upon execution and recordation of an instrument specifically terminating any such easement.

## ARTICLE XII

### CONDEMNATION

Section 12.1. Partial Taking Without Direct Effect on Lots. If all or part of the Common Area is taken or condemned by any authority having the power of eminent domain, but no Lot is taken, all compensation and damages shall be paid to the Board in trust for all Owners and their Mortgagees according to their respective interests in such Common Areas. The Association, acting through the Board, shall have the right to act on behalf of the Owners with respect to the negotiation and litigation of the issues with respect to the taking and compensation affecting the Common Areas, without limitation on the right of the Owners to represent their own interests with respect to any taking or condemnation involving their Lots. Each Owner, by acceptance of a deed to a Lot, appoints the Association as attorney-in-fact to negotiate, litigate or settle on such Owner's behalf all claims arising from the condemnation of the Common Areas. The proceeds shall be used to restore the Common Areas with the excess, if any, to be retained by the Association and applied to future operating expenses by the Board, in its sole discretion. Nothing prevents Owners whose Lots are specifically affected by the taking or condemnation from joining in the condemnation proceedings and petitioning on their own behalf for consequential damages relating to loss of value of the affected Lots, or Improvements, fixtures or personal property thereon, exclusive of damages relating to the Common Areas. In the event that the condemnation award does not allocate consequential damages to specific Owners, but by its terms includes an award for reduction in value of Lots without such allocation, the award shall be divided between the affected Owners and the Association, as their interests may appear, by the Board in its sole discretion.

Section 12.2. Partial or Total Taking Directly Affecting Lots. If part or all of the Property shall be taken or condemned by any authority having the power of eminent domain, such that any Lot or a part thereof (including specific easements assigned to any Lot) is taken, the Association shall have the right to act on behalf of the Owners with respect to Common Area as provided in Section 12.1 and the proceeds shall be payable as outlined therein. The Owners directly affected by such taking shall represent and negotiate for themselves with respect to the damages affecting their respective Lots. All compensation and damages for and on account of the taking of any one or more of the Lots or Improvements, fixtures or personal property thereon, shall be paid to the Owners of the affected Lots and their Mortgagees, as their interests may appear. If all of the Property shall be taken such that the Association no longer has reason to exist and shall thereafter be dissolved and/or liquidated, all compensation and damages for and on account of the taking of the Common Areas shall be distributed with the other assets of the Association in accordance with the Articles of Incorporation.

Section 12.3. Notice to Mortgagees. A notice of any eminent domain or condemnation proceeding shall be sent to all Mortgagees who have served written notice upon the Association in accordance with ARTICLE XI.

## ARTICLE XIII

### GENERAL PROVISIONS

Section 13.1. Enforcement. Declarant, as the developer of other subdivisions in the area of the Development, wishes to maintain a high standard in the appearance and quality of the Development. Though damages would be difficult to measure, the failure of the Owners and the Association to abide by the terms, covenants and restrictions contained in this Declaration would result in irreparable damage to Declarant and its reputation. Accordingly, Declarant, during the term of this Declaration, as well as the Association or any Owner or Owners, shall have the right, but not the obligation, to enforce all restrictions, conditions, covenants, reservations, liens and charges now or hereafter imposed by the provisions of this Declaration by proceeding at law or in equity against any person or persons violating or attempting to violate any such restrictions, conditions, covenants, reservation, liens or charges, either to restrain violation thereof or to recover damages therefor. Each Owner and Declarant shall have all appropriate remedies at law or in equity to enforce the provisions of this Declaration and the Bylaws and any duly authorized rules and regulations governing the Development against the Association.

In addition, the Association covenants and agrees that it shall exercise its power of enforcement to maintain a first class development in appearance and quality, and that it shall, upon the request of Declarant, enforce any restriction, condition, covenant, reservation, lien or charge contained in this Declaration deemed by Declarant, in its sole discretion, to have been violated, using all remedies available to the Association at law or in equity. Declarant reserves the right and easement, but not the obligation, to go upon any portion of the Common Areas at any time in order to repair and maintain such Common Areas where needed, in Declarant's sole discretion, to bring such Common Areas within the standards required by Declarant. If Declarant goes upon the Common Areas to perform maintenance and repairs for such purpose, the Association agrees to reimburse Declarant in full for the cost of such maintenance and repairs, upon receipt of a statement for such cost from Declarant. Failure by Declarant, the Association or by any Owner to enforce any restrictions, conditions, covenants, reservations, liens or charges herein contained shall not be deemed a waiver of the right to do so thereafter.

Section 13.2. Severability. Invalidation of any of the provisions contained in this Declaration, or any restriction, condition, covenant, reservation, lien or charge contained herein by judgment or court order shall not affect any other provisions, which shall remain in full force and effect.

Section 13.3. Amendment. This Declaration may be amended or modified at any time and from time to time by an agreement signed by Owners holding a majority of votes appurtenant to the Lots which are then subject to this Declaration; provided, however, any amendment to this Declaration must be consented to by Declarant so long as Declarant is the Owner of any portion of the Property in the Subdivision. Any such amendment shall not become effective until either (a) the instrument evidencing such change has been filed of record, or (b) the Secretary of the Association executes a certification in recordable form stating that the amendment has been approved by the requisite number of Owners.

Declarant may amend this Declaration without obtaining the consent or approval of any other person or entity if the amendments or modifications are correctional in nature and do not involve a change which has a material adverse affect on the rights, duties or obligations specified in this Declaration.

Section 13.4. Term. The covenants and restrictions of this Declaration shall run with the land and shall be binding upon all parties and all persons claiming under them for a period of thirty (30) years from the date this Declaration is recorded. After that time the covenants and restrictions shall be automatically extended for successive periods of ten (10) years, unless an instrument is recorded which is signed by a majority of the then Owners of the Lots, plus Declarant for so long as Declarant is the Owner of any Lot in the Development, agreeing to terminate the covenants and restrictions in whole or in part. Provided, however, that the residential use restrictions set forth in Section 8.1 of this Declaration shall run with the land and be binding upon all parties and all persons claiming under them in perpetuity.
