maintenance

Heating	Model Serial #	Installed By/Date
Natural Gas Furnace		
Heat Pump		
Fuel Oil Furnace		
Interior Oil Tank		
Air Conditioning		
Central Air System		
Indoor Evaporator		
Outdoor Condensing Unit	the second secon	
Wall Units		
Plumbing		
Gas/Electric Water Heater		
Oil-Fired Water Heater		
Pipes		
Service/Cleaning Sch Heating Natural Gas Furnace	Early fall (professional)	Last Serviced
Heating	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust;	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace	Early fall (professional) Early fall (professional) Early fall (professional)	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust; Professional cleaning/inspection early each fall	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace Interior Oil Tank	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust; Professional cleaning/inspection early each fall System Check filters each month during	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace Interior Oil Tank Air Conditioning/Central Air Indoor Evaporator	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust; Professional cleaning/inspection early each fall System Check filters each month during cooling season; check for proper draining at condensate line	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace Interior Oil Tank Air Conditioning/Central Air	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust; Professional cleaning/inspection early each fall System Check filters each month during cooling season; check for proper draining at condensate line Clean before cooling season; professional inspection when	Last Serviced
Heating Natural Gas Furnace Heat Pump Fuel Oil Furnace Interior Oil Tank Air Conditioning/Central Air Indoor Evaporator Outdoor Condensing Unit	Early fall (professional) Early fall (professional) Early fall (professional) Check for leaks and rust; Professional cleaning/inspection early each fall System Check filters each month during cooling season; check for proper draining at condensate line Clean before cooling season; professional inspection when warm temperatures are constant	Last Serviced
