GREENVILLE, NORTH CAROLINA (PRWEB) MAY 17, 2017

The Reserve at Lake Keowee is constructing a new fitness center for the community's Members and their guests, with a grand opening scheduled for the first quarter of 2018. The new 5,000 square foot facility will be located less than half a mile from The Orchard House clubhouse and the Village Center – the community's primary gathering place.

"Since 2012, we have averaged 39 homes per year built at The Reserve – a 54 percent total increase over five years," stated David Fleming, General Manager of The Reserve at Lake Keowee. "That expansion, coupled with the priority our members place on their and their families' health, has made this a decision we, as a club, wholeheartedly support and invest in. We are looking forward to providing our membership with a premier fitness and wellness center and experience, with top of the line facilities and machines."

Stephen Fuller Designs designed the architectural plan for The Reserve at Lake Keowee's new fitness center and Pyramid Construction, Inc. will build the facility. The fitness facility will feature three large areas: one, intended for group classes like yoga, Pilates and spin classes; the second, for aerobic/cardiovascular equipment; and the third, dedicated to strength training and free weights. The center will also include two massage/physical therapy rooms and shower and locker rooms for men and women. Additionally, future expansion opportunities have been factored into the design.

The fitness center will be accessible to The Reserve at Lake Keowee's members and their guests 24 hours a day, seven days a week. Construction will break ground upon the completion of the permitting
