Duke Energy delays transformer move

THE JOURNAL STAFF

SENECA — Duke Energy has rescheduled a transformer move originally set for this weekend due to forecasted weather conditions.

Duke Energy has three transformers to relocate to the Bad Creek Hydroelectric Station and will do so over the course of three weeks, with the

moves tentatively set for next Tuesday and Wednesday, Jan. 23-24 and Jan. 30-31 between the hours of 9 a.m. and 6 p.m.

The move will cause road closures on S.C. highways 107 and 28 during those time frames. It will take two days to move each 700,000-pound transformer.
