Ready to rebuild

Demolition of the former Bi-Lo building on S.C. Highway 130 is complete and work is expected to begin soon on a new Publix store in its place, according to Publix spokeswoman Kim Reynolds. She said it typically takes up to a year to build a new store from the ground up. A sign at a fence at the property said that the Family Dollar store next door to the Publix location will remain open. Crystal Nails & Spa has temporarily moved to another location "because of the shopping center renovation," according to a separate sign. Officials have projected a mid-summer 2021 opening for the Publix store. The other storefronts in the shopping center are vacant.
